## Beware Of Unwary Pedestrians

By Martha Johnson  
Dodge Safety Consultant

MOTORISTS! Did you know that 6 out of 10 pedestrians killed in traffic accidents never have been licensed to drive a car?

These figures are the result of a recent study made by the American Automobile Association Foundation for Traffic Safety.

In view of this, the best rule is to assume that every pedestrian is a non-driver and not too well acquainted with safety rules. Remember, too, that your car is several thousand pounds of metal as compared with man's average weight of 160 pounds—of 6 ft. 6 in. height.

KEEP IN MIND the non-driver, who is unpredictable and that he may:

- ...pop out from between parked cars.
- ...be a child, concentrating on play rather than safety.
- ...be elderly, with failing sight and hearing, and with slow reactions.
- ...have had too much to drink, thus reduced alertness.
- ...be impatient for the traffic light to change and try to "beat" it.
- ...not know pedestrian laws and feel "the pedestrian is always right."
- ...be a Jay-walker.
- ...have on dark clothing and be almost invisible at night.

THE MOST OF ALL, remember the pedestrian is a fellow human.

# LETTERS TO THE EDITOR...

To the Editor:

We would like to ask for an itemized public statement as to the money to be saved by the closing of our school. Our bus is already overcrowded with three to a seat. Putting sixteen more children on it is impossible. Two buses would be necessary in the morning and if there is to be a bus bringing at the most a half dozen children home at noon we ask if it is a paying proposition for it to have to travel twenty-three miles for such a small number?

If this was premeditated for some time this winter as told me by a school board member, why was it not mentioned in the superintendent's report in the latest town report and brought up by the superintendent at the budget committee hearings. The inhabitants of the community would have appreciated some warning so we would have had the opportunity to talk with the members of the school board and superintendent.

We have expected this to happen sometime but we also expected when it did that there would be better accommodations for them at the Bethel Primary School. The town report states these new rooms are to take care of slow learners. This we understand is from seven to ten pupils at a time. This will not offset the overcrowded conditions of the regular rooms plus thirty extra children that will be brought in if these schools are closed.

We hear on all sides from the teachers what an impossible job they have with thirty plus pupils to teach. Why make their job harder and make each child's education suffer more by aggravating the condition.

We invite an inspection of our school by the taxpayers of Bethel, also by the school board as I understand some of them have never seen it. We are sure they would be surprised and pleased. It was painted inside in 1957. We have running water. We do not feel flush toilets are a necessity. I am sure the children do not feel abused. As I previously stated, we are in need of a new heater as our children have been in danger all winter but a plea for a new one was refused. It is about fifteen years old. The cost of heating would be considerably reduced by a new heater. We also need the front door.

The whole town naturally is in-

To the Editor:

It was with very great interest and surprise that I read about the closing of the East and South Bethel Schools. As a disinterested parent—since I have no children in either of these schools—but as a very interested citizen I wholeheartedly side with Mrs. Gerry Howe in her indignation at such an unwarranted action. We have all heard about the crowded conditions in Bethel and also know about the crowded conditions on the bus. How can 16 to 18 more children be crowded into a bus SAFELY when some of them are already sitting three in a seat? It doesn't seem to me that closing these schools will help anybody—in expense, learning or comfort. Two extra rooms in the basement fitted up as they should be—one or two extra trips by the buses will cost more than keeping these schools open.

If these schools are closed now, they will probably never be reopened. If the school committee and Mr. Christie had already discussed this matter and had tentatively decided to close the school (as Mr. Christie indicated in his article in the Citizen of March 19), why wasn't this decision put into the town report or into Mr. Christie's annual report to give the townspeople their right of deciding for themselves instead of having it thrust upon them without their assent or approval.

I agree with Mrs. Howe that few people in East Bethel were asked or would want their school taken from them. Alder River Grange also protests this action by the school board and so voted at their last meeting.

Mrs. Myra M. Foster

Interested is not seeing their tax bill any higher. If it has to be higher we all want it to be for a legitimate and profitable reason, profitable to our most important future citizens—the children.

"May I please point out that this is not just the opinion and feeling of a few. Considerable time has been spent in contacting all the families and because of their wholehearted disapproval of the closing of the school we are here by protesting. We have been more than pleased by so much verbal support by the townspeople and we do thank them.

## EASTER

## LIFE LINES

by Col. Ralph T. Miller of The Salvation Army

### THE CHILD-LIKE FAITH

No one wants to be called "childish." Psychologists tell us that it is the one thing we should avoid; that we must attain "mature minds." One of the most devastating things that can be said is: "Why don't you grow up?"

So the words of Jesus fall strangely upon our ears: "Unless you turn and become like children, you will never enter the Kingdom." (Matthew 18:3).

But notice this: He tells us to be "childlike," not to be "childish." There is a difference.

A child-like faith doesn't try to understand everything. The youngest child goes to the television, and turns it on, and is able to get a program, without any comprehension of electromagnetic waves, or the operation of a transistor.

Who can understand, or explain, the mystery of prayer? But William Temple, the late Archbishop of Canterbury once wrote, "I have been told that prayer is never answered, that it is always a coincidence. It may be so. But I have noticed that when I pray for my friends, coincidences happen. When I stop praying, they stop happening."

### MAN'S RECIPE

BLANCHES SALT-FREE DROP COOKIES

It is good for the soul to work on a recipe even if the odds are stacked against one. Take this matter of getting up at a decent hour in the morning. Five o'clock in the summer and six o'clock in the winter.

It was a wonderful period. I like to watch the growing light over in Night's curtain and watch the symphony of color on the mountains against the horizon. These spring mornings as I wander around the kitchen calling a muffin with grape jelly and sipping from coffee, the colors in the sky make a master painting. I eat breakfast vertical, and earnestly suggest that you try it. You will find it gets the day off to a better start.

Considering what goes on in many households, I feel we would be a calmer nation if Congress passed a law requiring everyone to get up half an hour earlier. Honestly, wouldn't you get off to a better start if you did?

If this recipe had been evolved, I would have it in Country Flavor Cookbook, for many folks are on a low salt diet. Use one third cup shortening or salt free butter, one fourth cup brown sugar, one half cup white sugar, one egg beaten, one teaspoon vanilla, one half cup chopped seeded raisins, one fourth cup chopped nuts, one half cup flour, one half teaspoon cinnamon, one fourth teaspoon nutmeg, one eighth teaspoon cloves, one half cup oatmeal.

Cream shortening and sugars; add egg and vanilla and mix. Add raisins and nuts and mix. Mix in flour with spices. Mix. Add oatmeal and mix.

Drop by teaspoon on greased sheet. Bake at 350 about 15 minutes or until done. This is a tangy,

### WOMEN'S FELLOWSHIP COMING EVENTS

Thursday evening, April 2, at 8 o'clock the Executive Board of the Women's Fellowship will meet at the home of Betty Tibbets with Leonora Knowles assisting. It is important that all officers, Circle leaders, and Committee Chairmen be present.

April 8th is the second quarterly meeting of the fellowship, supper at 6:30 followed by Program which will consist of a speaker, dedication of the Woman's Gift at which time everyone should bring their gift envelope, also Friendly Service Dedication.

Circle 2 has chosen April 23 as the date for their calendar supper. Circle 5 met last week at the home of Mrs. Charles Heywood with 12 members present. Program was furnished by Mr. Heywood showing very interesting and colorful slides of various places. Also a white elephant table was a success so it was decided to repeat this at next circle meeting.

You see he didn't understand prayer any more than a child understands a television set. But both know that it works. Have you achieved the child-like faith?

### COUNTRY FLAVOR

#### HORSE HAIR TIME

If you remember fringe top surgery, coal oil lamps and sulfur and molasses, you recall the horse hairs that decorated coats and hats in the spring of the year. No matter how thoroughly a lad curry-combed the Morgan mare, hairs would fly back through the air as Belle whisked the wagon along the dirt road on the way to the village.

The big work horses, Sam and Jerry, thoroughly enjoyed the currying on a Saturday morning when a 12 year-old had time for a long session. The mare had V-shaped cuts which combed the hair smoothly.

But come April and hair-shedding season, a special comb with wire teeth was more efficient. Big coils of hair were easily loosened from the skin and a lad stopped frequently to clean the clogged wires with an eight-penny nail.

The sharp wire teeth felt good against the horse's skin and the horse pushed sideways to increase the pressure against his hide. Wasn't it Mark Twain who said that scratching an itch was one of life's major satisfactions?

Sometimes one borrowed a neighbor's Dakota Horse Clipper, but Father never favored the close-shaving that some farmers gave their horses. Hand clippers were used to trim around the ears and fetlocks, and a special wire card was used to comb out the manes and tails.

Horse hair time was an annual and expected season on the farm half a century ago. Today boys grease and oil powerful tractors as they ready for another farm work season. But there are those who look back on the blustering days of yesterday and wish that boys could know the fun of currying a friendly horse.

Favorable weather and one of my favorites.

## TODAY'S Meditation

from The Upper Room

THE WORLD'S MOST WIDELY USED DEVOTIONAL GUIDE

Thursday, March 26

Read John 19:28-30.  
Jesus knowing that all things were now accomplished, that the scripture might be fulfilled, saith, I thirst. (John 19:28).

THE gospel story tells us that Jesus was hungry at times, but also that He fed the thousands. Sitting thirstily by the Samaritan well one day, He gave freely of the living water to a sinful woman and to her countrymen. He experienced fatigue, but invited the heavy-laden to come and find rest in Him. He was to suffer death a few hours after the Last Supper, but He brought peace to the hearts of His troubled disciples in the upper room.

On the cross, Jesus experienced all the misery of physical thirst. He called out, "I thirst."

But He is the one who can give

us the water of life and make streams of living water well up within our souls, a spring that will never go dry.

Christians have found that He can satisfy man's thirst for righteousness. "Let him that is athirst come, and Whosoever will, let him take the water of life freely."

PRAYER: We thank Thee, O Lord, that Thou didst taste the bitter cup of suffering in body and soul so that we could taste the sweetness of the water of life. Thou dost satisfy our longings. Thou dost fill our hearts with joy. All praise and honor and glory be Thine, now and evermore, in Thy name we pray. Amen.

Thought For The Day  
"Blessed are those who hunger and thirst for righteousness, for they shall be satisfied."

For Thou, Lord, art good, and ready to forgive, and abundant in lovingkindness. (Psalms 86, 5.)

When we find it hard to forgive and forget, then should we pray to God that He forgive us and that the never-failing warmth of His love fill us and melt away our bitterness. Then indeed we will be able to forgive ourselves for our un-charity.

## Iron Ore Stocks — Good Values In The Market Today

The sharp recovery in the steel industry suggests that now is a good time to consider the purchase of common stocks in iron ore mining companies. These appear attractive at the present time not only because of the possibility of substantially increased earnings in 1959 but also because of the long range potential. It is generally conceded that the steel industry will continue to grow with the economy and in the next fifteen years the demand for iron ore is expected to increase between 25 and 30%. Furthermore stocks of companies owning ore properties should be good inflation hedges as in the past the price of iron ore has gone up with the inflation cycle. In fact, during good years of business activity it seems unlikely that there will be any serious over-supply of iron ore as there has been for some time of crude oil.

The Lake Superior area still remains the prime source of supply for iron ore in spite of the fact that there has been much conflict over the years as to how long the reserves would last there. It should be pointed out that new reserves are being uncovered each year and that companies have been somewhat reluctant to develop and report these new reserves until such time as absolutely necessary due to the taxes imposed by the State of Minnesota on proven deposits. Furthermore the technology has made it possible to use considerably lower grade ores than had ever been anticipated in the past. Today new techniques have

## V. A. NEWS LETTER

Veterans holding GI insurance who are also recipients of pension or compensation can save money and time by having their GI insurance premiums deducted from their monthly pension or compensation checks.

M. L. Stoddard, manager of the VA Center, Togus, pointed out that veterans who arrange to have their monthly insurance premiums deducted in this manner not only save postage, money order and sundry expense items but also avoid the possibility of a lapse in their insurance. It is impossible to "forget" to pay an insurance premium if deductions for premiums are authorized beforehand.

Mr. Stoddard urged veterans with

questions on any phase of their insurance program to contact the nearest VA contact representative or to write to the VA District Office administering the policy, giving the policy number.

Q. I'm a Korea veteran, holding GI term insurance. Is it true that I now can convert my term insurance to a permanent plan?

A. Yes, Korea veterans holding term insurance with the letters "RS" before the policy number now may convert to one of six permanent VA plans.

Q. I want to apply for a disability rider on my GI insurance, to give me an income if I am disabled so I can't work. Will the new increased coverage of up to \$100 a month cost me twice as much as the old, which allowed only \$50 a month?

A. No. Your additional payment for the new increased coverage would be small. Any VA office will give you exact figures for the extra payment on your policy.

## Good Printing SERVES EVERYBODY

Good printing is a necessity in all forms of business. It can save hours of work, speed up routine tasks, eliminate common errors and help to avoid misunderstandings and costly delays or actual loss of business revenue.

Good printing is a convenience in the home. Inexpensive personal stationery is not only economical and in good taste but it is plain "good business" when used for other than social purposes. One's name and address plainly printed offer exact information of your identity in occasional correspondence.

The latest in modern business forms can be adapted to use in

many comparatively small businesses. As a matter of economy of time and money, it will pay to see what we can do for you in this line.

Remember that printed matter can be bought at widely varying prices. The bargain hunter can only hope to get his money's worth. The cost of good printing need not be high, and the buyer is assured of satisfaction.

It will be of advantage to all users of printed matter to consult us before buying. We can supply calendars, NCR and one-time carbon forms, many kinds of forms and office supplies promptly and economically.
